PHI 61/24 Prescribed List – practical tips for submitting applications

Publication of a video presentation to support Prescribed List applications

Date published: 30 August 2024

PHI circular type: Prescribed List announcement

Audience: Health sector

We have released a [miniclip with practical tips](#) to support sponsors in preparing and submitting their applications for the March 2025 Prescribed List. The applications cut-off date is 11:59 pm on Sunday 8 September 2024.

This is the 1st miniclip and we plan to create more presentations aiming to provide sponsors with concise information related to the preparation of their Prescribed List applications. This is not intended to be a comprehensive guidance, but rather brief advice on some of the commonly asked questions.

We encourage sponsors to watch this clip, read the [draft Prescribed List Guide](#), and review the [training presentation](#) released in November 2023, before submitting your application. We will continue working on finalising the Prescribed List Guide concurrently with preparing other mini-clips in the series. We will advise when further information becomes available.

If you wish to provide feedback on the 1st miniclip or want to propose a topic for the next miniclip, please send us an email at prescribedlist@health.gov.au.
